

Creating a Resilient Cybersecurity Culture

How your staff will stay compliant with cybersecurity best practices

**KIRKHAM
IRONTECH**

1 BUILD AWARENESS

Educate your team on the known threat vectors of today's technological advances

2 DRILL

Send tests and drills with fake cyberattacks to test their skills

3 EVALUATE

Reward compliance -- everybody likes a prize!

4 REPEAT

Cybercriminals never rest. Update your staff regularly on the latest threat vectors

5 CONCLUSION

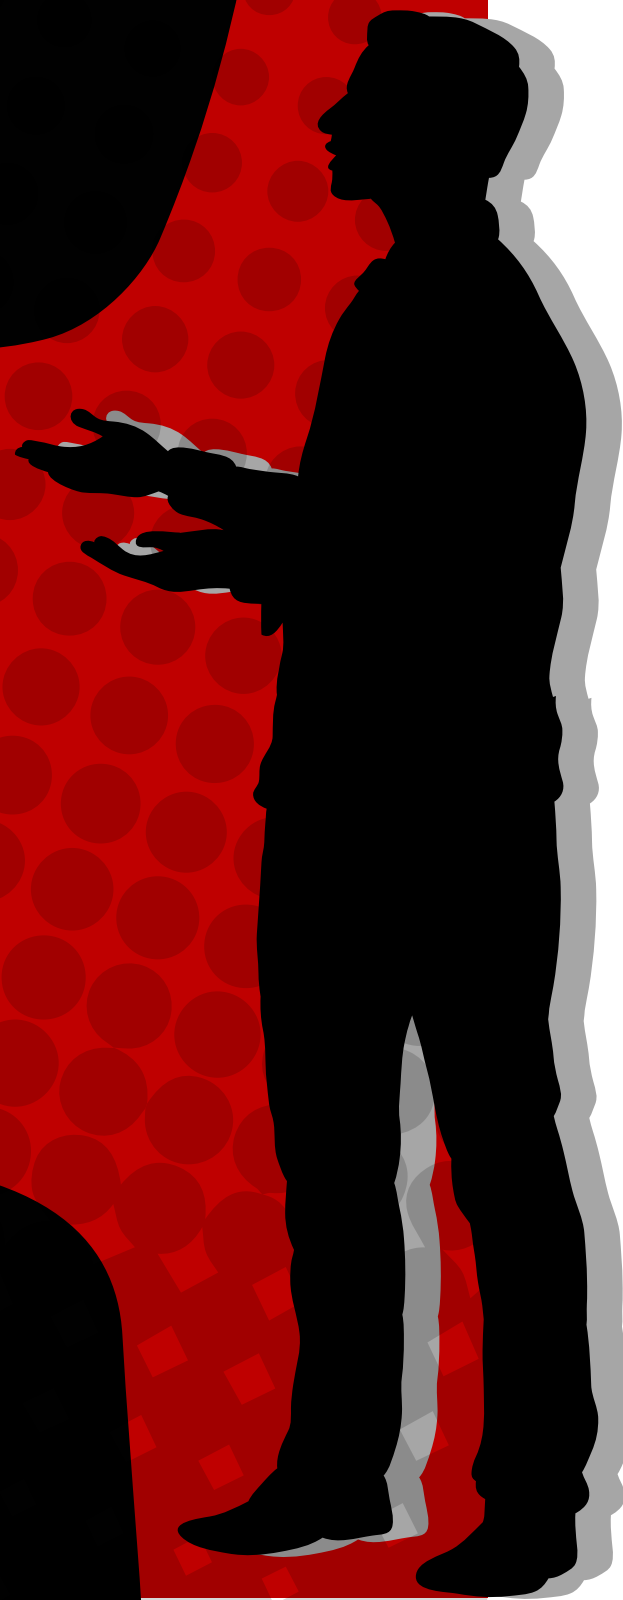

Ensuring cybersecurity compliance is a full-time job. Contact our specialists today to find out more

When does 30 minutes ever save you **millions** of dollars?

Almost NEVER. Except today*

A 30min risk-free cybersecurity assessment can actually save you millions of dollars in potential loss.

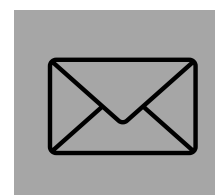

*a quick discussion on the threat cybercriminals pose to your business may be the differentiating factor when -- not if -- an attack happens.
